

Without boundaries, our Telemedicine Program  
would never have delivered so many

# BREAKTHROUGHS

Our network's 2 mobile ICU ambulances—providing care to trauma, burn, neonatal, and pediatric critical-care patients throughout the Hudson Valley—allow ambulance staff to have video consultations with clinical specialists while transporting critically ill and injured patients to sister hospitals. **It's all part of what we call healthcare without boundaries.**

**HEALTHCARE  
WITHOUT  
BOUNDARIES**
