

VEGASCALINE: GAME SHEET

BY EXCO GAME STUDIO

A neon-soaked road trip through a warped Vegas. Wrapper Stacks land, nudge to full reels, lock in for sticky re-spins, and finish with a synchronized mystery reveal. In Free Spins, a persistent multiplier keeps climbing across spins - pressure builds until the screen melts.

MECHANICS

(GAMEX + HACKS)

GAMEX: WRAPPER STACKS

Mystery symbols drop 1-5 high, nudge to full height, lock, and trigger re-spins. Each new full wrapper adds +1 to the round multiplier (in FREE SPINS). When the streak ends, all wrappers reveal the same symbol in a single hit.

STICKY RE-SPINS

As long as new full wrappers keep landing, the streak continues; if not, it resolves and the round multiplier applies to the reveal.

PROGRESSIVE / PERSISTENT MULTIPLIER

Free Spins: **multiplier persists across spins** for compounding potential.

FREE SPINS (6 / 9 / 12)

Trigger with Scatters; all wrapper logic is active plus the persistent multiplier.

EXCO HACKS

BONUS BUY (MENU)

Immediate entry to FS at 6 / 9 / 12 spins. Incremental multiplier for each spin and re-spin.
